- SteelCoat for durability
- Small form factor
- Works well with dry, moist or rough fingerprints
- High quality fingerprint image

## PRODUCT DESCRIPTION

The Eikon family of USB capacitive fingerprint readers provide quick and reliable biometric authentication. Our patented technology reaches up into the ridges and valleys of the fingerprint to capture fine print details. The result is the ability to capture a wide range of fingerprints. The Digital ID Hardware Engine companion processor performs match-on-device and OTP generation in secure, dedicated hardware.

Crossmatch offers two capacitive fingerprint readers in the Eikon family:

- EikonTouch 710 - The only touch silicon FIPS 201 PIV certified single finger capture device
- EikonTouch 510 - A SteelCoat protective coating provides added protection of the fingerprint reader for rugged environments

Eikon fingerprint readers are designed for use with Crossmatch software. Our Software Development Kits offer flexible APIs to enable fast integration with a broad range of applications. Whether you are an enterprise customer or a system integrator, our biometric identity verification solutions provide a natural extension to your security system and applications.
